

Golden Gate Bird Alliance Adult Education Classes

Golden Gate Bird Alliance offers classes each season in fall, winter, spring, and summer with the most offerings in fall. Classes are generally 4-6 weeks. The structures vary but most are a 1-2 hour weeknight presentation paired with a 3-4 hour weekend field trip each week. Most weeknight class presentations are through Zoom. Exact dates of classes, presentation modality, recording availability, and the locations of field trips vary by class, but these details will be posted in the class offerings during the enrollment periods. Class levels vary from entry level beginning birding to more advanced topics. See below for the list of possible class offerings.

	Classes Starting in	Classes Announced	Enrollment Begins
Fall	Sept - Nov	Last Wed July	1st Wed Aug
Winter	Jan - Feb	Last Wed Nov	1st Wed Dec
Spring	Mar - May	Last Wed Jan	1st Wed Feb
Summer	June - Aug	Last Wed Apr	1st Wed May

In addition to the seasonal short-classes, Golden Gate Bird Alliance, in partnership with the California Academy of Sciences, usually offers the year-long [Master Birder Program](#). When offered, enrollment for Master Birder begins in winter and the program begins in February, meeting twice monthly through December. The program is taught by Jack Dumbacher, Curator of Ornithology and Mammalogy at the California Academy of Sciences, Bruce Mast, and Eddie Bartley. More information about the program requirements and description can be found on the [California Academy of Sciences website](#).
