Special status is being given to certain California natives with few specimens being protected and some plants thought to be extinct now found and being reproduced for reintroduction:

Franciscan Manzanita
Compact Cobwebby Thistle
Few-Flowered Navarretia
Dudleya "Candleholder"
Santa Cruz Island Silver Lotus
Santa Rosa Basalt Broodier
Pumice Grape Fern

Plants found in The Cedars in Sonoma County (see FREMONTIA, April 2009)

You can enter the show by contacting rbrandwynn@aol.com to register.

You will be informed if the species can be accepted (we are accepting three images of each species)

Your piece needs to be ready by April 2nd and come framed and with hardware for mounting if 2D

2 D images : Easel size

(Larger pieces will need to be considered by the Advisory Committee)

3D images: 12" x 12" (only 12 spaces)

****** For Those Interested in Sales, We Will be Able to List Sales Information ******

A sliding scale donation will be requested (\$15 - \$30) to cover publicity costs

Celebration's Advisory Committee includes James Wilson, Naturalist,
Nancy Ceridwyn, Naturalist, Bonnie Mager, Artist, Robin Freeman, Teacher
and photographer, and Robbie Brandwynne, Artist and Quilter.

**Show Sponsors: East Bay Regional Parks District and Merritt College
Environmental Management and Technology Program**
