

Make A Hummingbird!

A Craft Project by Golden Gate Audubon Society

- Color the body parts of the hummingbird: 1, 2, 3, 4, 5, 6, 7, 8.
- Carefully cut out the body parts.
- Use glue or tape to stick the body parts together, with the colored parts on opposite sides: 1+2 3+4 5+6 7+8.
- Fold on the dotted lines of the wings to stick to the body.
- Cut a small line at the tip of the tail so you can stick in the tail parts of 7+8.
